Pickup & Delivery Platform for FedEx Ground

Beans Route is a delivery driver solution that optimizes routes, makes delivering to apartments easier, and allows for more efficient package dropoffs. Here are the benefits:

- FedEx Approved Vendor
- Application which works on any device
- Ability to drop pins, and make notes for future visits
- Route Optimization
- Lasso capability – ID the area drivers want to go to next, and optimize those stops
- Data dashboard for AO's & BC's
- Create rescue routes on the fly
- Turn by turn directions (Apple maps, Google maps or Wayze)
- Ability to turn on address pins (lists the address and SID's)
- Real time driver tracking

Cut 20-25% off your apartment delivery times!

Cutting Edge Apartment Data

Beans Route (One Hundred Feet) has been mapping the largest apartment communities around the country for 3 years!

Now this data is available in real time to your drivers. No more searching for unit's or guessing the delivery policy.

Drivers now see these views when they approach a multifamily property

Dispatcher Tool

The Beans Route dashboard provides real time driver tracking, pick ups and deliveries, and route mapping
